

Graphic Designers – Freelance/Contract

From time to time, SWJ uses the services of **contracted freelance graphic design professionals** on project work. If you are interested in freelance design work with SWJ, please forward your resume along with work samples to the attention of Wendy J. Miller, President at info@swj.cc

Our preference is to work with designers demonstrating a varied background in packaging design, advertising and brochure layout; and with experience preparing files for production in various media. Demonstrated abilities in typography, custom illustration and non-traditional/mixed media graphic solutions are also assets.

Please note that integrity and professional conduct are non-negotiable at SWJ - all employees of SWJ, including freelance/contract workers, must sign and abide by our **comprehensive confidentiality agreement**, and may also have to sign client-specific agreements.

Thank you for your interest in careers with SWJ. Due to the volume of responses, only those applicants selected for interviews will be contacted.
